

Date: 08.03.2024

- We conducted the experiment on 8 participants this week and captured the sensor data.
- At least 5 more experiments will be done during the upcoming week.
- The professor will check our code next week and will give us feedback.
- To fix the “Memory Compact” issue we will need to turn this feature off.
- More optimizations need to be done such as saving the file as binary and compressing the data
